

←Application Main Page

Initially when the application is opened this is the screen that appears and this screen has 3 buttons i.e. owner? Want to be a dealer? Or customer?

>>If the user is an owner and clicked on the owner? Button, then navigates to the owner login page.

←Owner Login Page

We created Owner Login credentials as Email: pranjalowner123@gmail.com and Password: 123456.

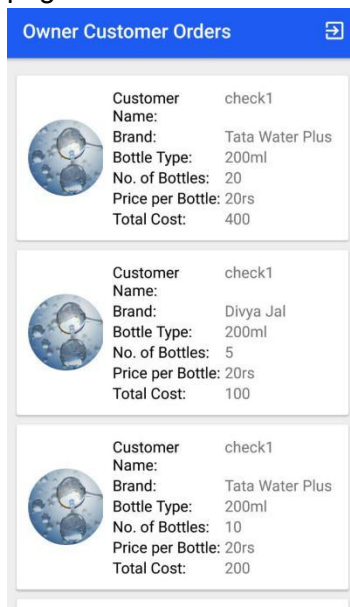

After entering the credentials, the user will be navigated to the owner home page.

← **Owner Home Page** (CustomerOrDealer_OwnerActivity.java)

This is the owner home page and it displays three buttons i.e., check orders from customers, check orders from dealers and Add products.

>>When clicked on button check orders from customers it navigates to the customer orders page.

← **OwnerCustOrderActivity.java**

Here in this page we can see all the orders received from customers.

>>When clicked on button **Orders from Dealers** it navigates to the dealer orders page.

Owner Dealer Orders

Select Product Price ▾

Enter Quantity

ADD PRODUCT

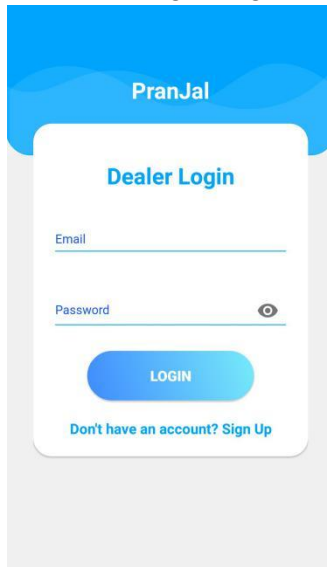

←AddProductsOwnerActivity.java

Here we can choose the product details and enter the quantity that should be added and when clicked on the ADD PRODUCT button the product will be added successfully.

Once the product is added, you'll get a Toast showing the status of the Updation.

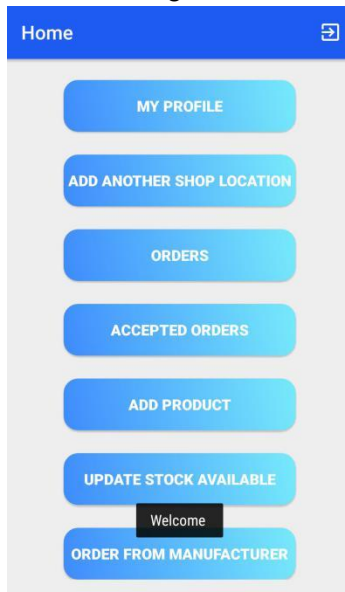

Followed by **Owner Logout**.

>>If a user is Dealer and clicked on the button **WANT TO BE A DEALER?** Then it navigates to the dealer login page.

The image shows a mobile app interface for 'PranJal'. At the top is a blue header with the text 'PranJal'. Below it is a white card titled 'Dealer Login'. Inside the card, there are two input fields: 'Email' and 'Password'. The 'Password' field has a small eye icon to its right. Below the input fields is a blue rounded button labeled 'LOGIN'. At the bottom of the card, there is a link that says 'Don't have an account? Sign Up'.

← Dealer Login Page

We created Dealer Login credentials as Email: ranadheer@gmail.com and Password: 123456. After entering the credentials, the user will be navigated to the Dealer home page.

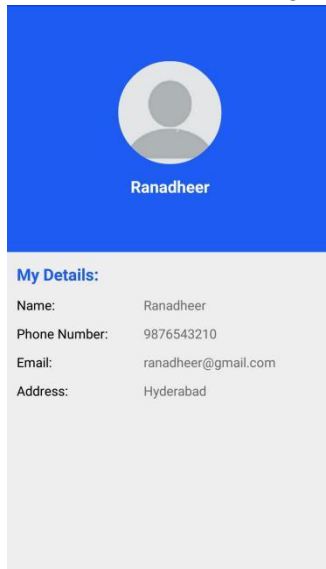

The image shows the 'Dealer Home Page' of the 'PranJal' app. At the top is a blue header with the text 'Home' and a small icon. Below the header is a vertical list of blue rounded buttons: 'MY PROFILE', 'ADD ANOTHER SHOP LOCATION', 'ORDERS', 'ACCEPTED ORDERS', 'ADD PRODUCT', 'UPDATE STOCK AVAILABLE', and 'ORDER FROM MANUFACTURER'. A small black box with the text 'Welcome' is positioned above the 'ORDER FROM MANUFACTURER' button.

← Dealer Home Page

This is the dealer home page it has the following buttons

- My profile
- Add another shop location
- Orders
- Accepted orders
- Add product
- Update stock available
- Order from manufacturer

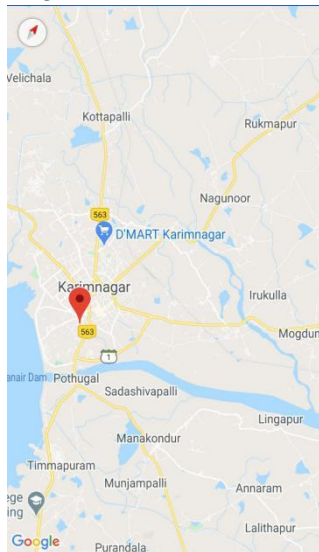

>>When clicked on **My Profile** button it navigates to the Dealer profile page.

← **Profile Page**

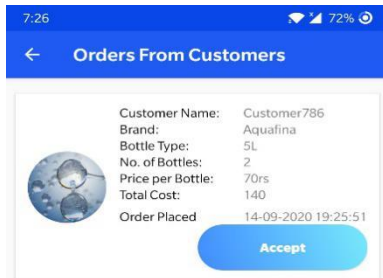

The dealer profile page displays some basic details of the dealer like Name, phone number, email and Address.

>>When clicked on the button **ADD ANOTHER SHOP LOCATION** it navigates to the respective page.

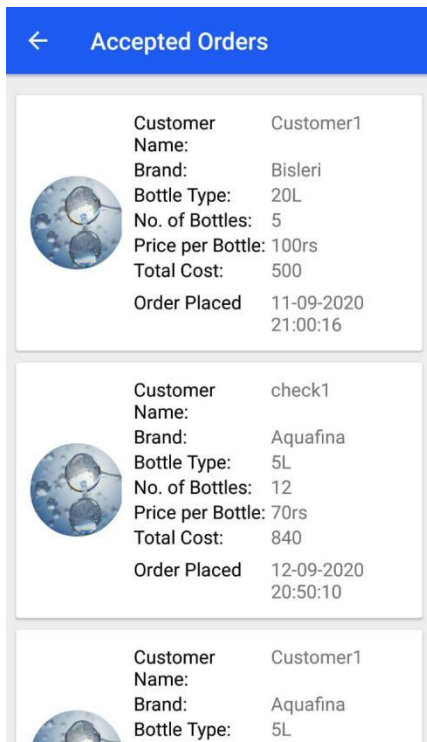

It gives access to the dealer to add another shop location.

>>When the button **ORDERS** is clicked it is navigated to "orders from the customer page" and we can see all the orders placed by customers in that page.

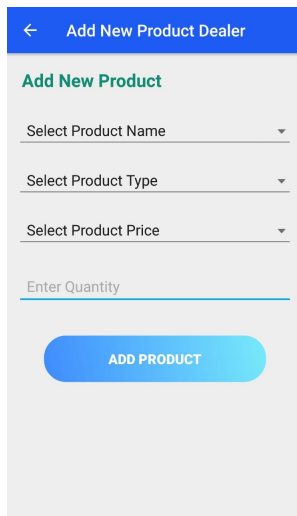

←Orders To Be Accepted By the Owner.

>>When the button **ACCEPTED ORDERS** is clicked it is navigated to the accepted orders page.

In this page we can see all the accepted orders that are placed by the customers.

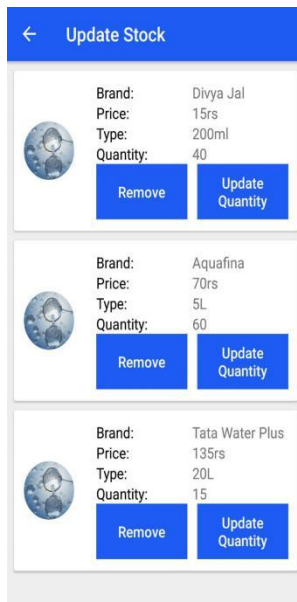

When the button **ADD PRODUCT** is clicked It is navigated to add product page.

Here we can choose the product details and enter the quantity that should be added and when clicked on the **ADD PRODUCT** button the product will be added successfully.

Once the product is added, you'll get a Toast showing the Status of Updation.

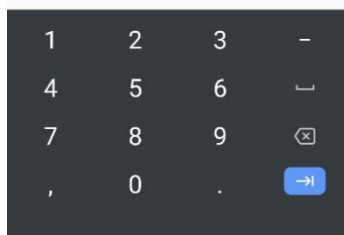

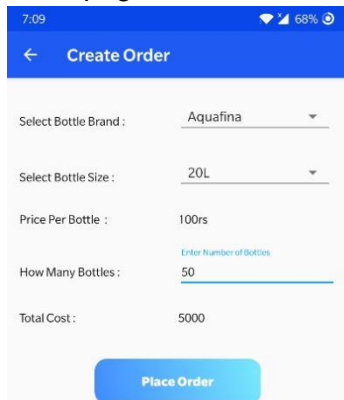

When the button **UPDATE STOCK** is clicked it is navigated to the update stock page.

Brand	Price	Type	Quantity	Remove	Update Quantity
Divya Jal	15rs	200ml	40		
Aquafina	70rs	5L	60		
Tata Water Plus	135rs	20L	15		

On this page we can update Quantity of the stock or remove the stock.

>>When the button **ORDER FROM MANUFACTURER** is clicked it navigates to the respective order page.

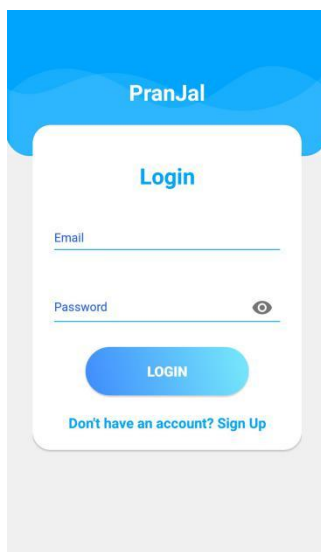

←**Ordering to Owner.**

In this page we need to select the product details like Brand, size, quantity and when the button “**place order**” is clicked the order will be placed successfully to the Manufacturer.

>Once the dealer clicks on place order, he can see Toast saying "Order Successfully Placed". The Details are stored in the Firebase in a collection named **Orders** (roleID=2).

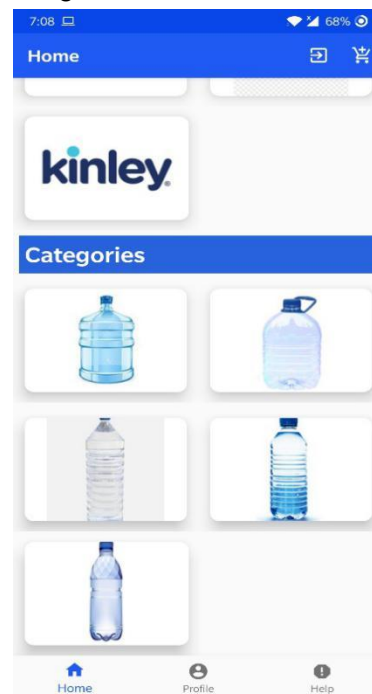

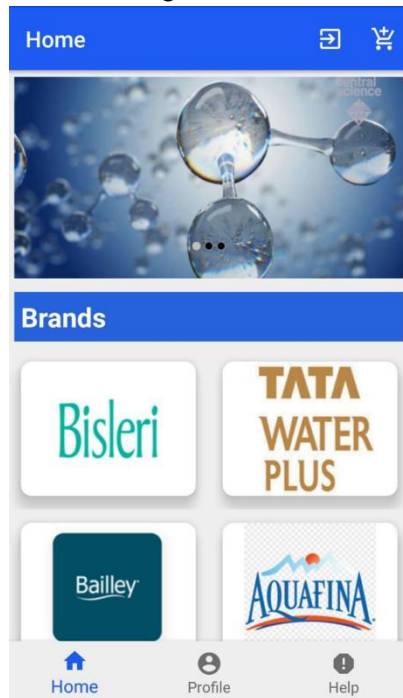

>>**Dealer logout**

>>If the user is a customer and the button **CUSTOMER?** Is clicked then it is navigated to the customer login page.

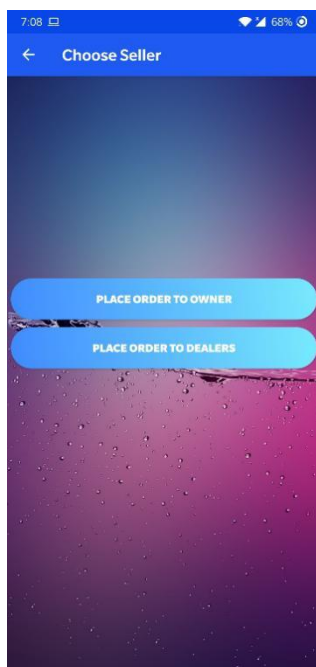

←**Customer Login Page**

We created Customer credentials as Email: customer786@gmail.com and Password:123456. After entering the credentials, the user will be navigated to the customer home page.

>>Here the customer can choose between various brands and categories.

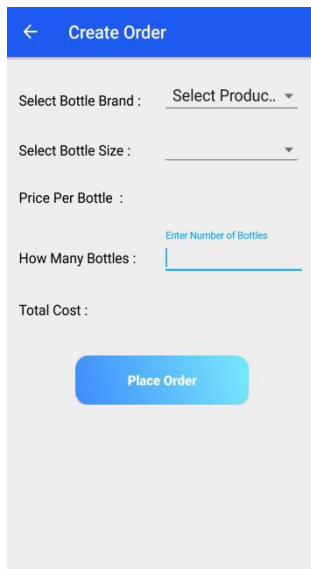

>>When clicked on any **brand** it is navigated to a page where we can place orders from an owner or a dealer.

← **Choose Seller Page**

In this page the customer must choose between dealer and owner to place the order.

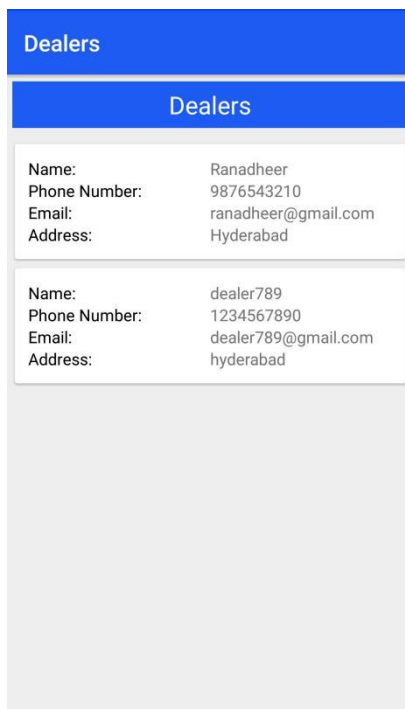

>>If the button **ORDER FROM OWNER** is clicked it is navigated to the order page.

In this page we need to select the product details like Brand, size, quantity and when the button “place order” is clicked the order will be placed successfully to the Manufacturer.

>>Once the dealer clicks on **Place Order**, he can see Toast saying "Order Successfully Placed". The Details of the Order will be stored in Firebase inside “**Orders**” collection (roleId=1).

>>If the button **ORDER FROM DEALER** is clicked then it is navigated to the respective page.
